Form T4

State: New Mexico

Performance Measure Data Collection
Interim Standard – Percentage Point Change in Abstinence - Alcohol Use

GOAL
To reduce substance abuse to protect the health, safety, and quality of life for all.

MEASURE
The change in all clients receiving treatment who reported abstinence at discharge.

DEFINITIONS
Change in all clients receiving treatment who reported abstinence at discharge equals clients reporting abstinence at admission subtracted from clients reporting abstinence at discharge.

Most recent year for which data are available
From: [ ] To: [ ]

<table>
<thead>
<tr>
<th>Alcohol Abstinence – Clients with no alcohol use (all clients regardless of primary problem) (use Alcohol Use in last 30 days field) at admission vs. discharge.</th>
<th>Admission Clients ( T_1 )</th>
<th>Discharge Clients ( T_2 )</th>
</tr>
</thead>
<tbody>
<tr>
<td>Number of clients abstinent from alcohol [numerator]</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Total number of clients with non-missing values on “used any alcohol” variable [denominator]</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Percent of clients abstinent from alcohol</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Percent of clients abstinent from alcohol at discharge minus percent of clients abstinent from alcohol at admission. (Positive percent change values indicate increased alcohol abstinence)

Absolute Change \( \%T_2 - \%T_1 \)

| (1) If State does not have a “used any alcohol” variable, calculate instead using frequency of use variables for all primary, secondary, or tertiary problem codes in which the coded problem is Alcohol (e.g., TEDS Code 02) |

State Description of Alcohol Use Data Collection (Form T4)

**STATE CONFORMANCE TO INTERIM STANDARD**

States should detail exactly how this information is collected. Where data and methods vary from interim standard, variance should be described.

**DATA SOURCE**

What is the source of data for table T4? (Select all that apply)

- [ ] Client Self Report

  Client self-report confirmed by another source:
  - [ ] Collateral source
  - [ ] Administrative data source
### EPISODE OF CARE

**How is the admission/discharge basis defined for table T4? (Select one)**

- Admission is on the first date of service, prior to which no service has been received for 30 days AND discharge is on the last date of service, subsequent to which no service has been received for 30 days
- Admission is on the first date of service in a Program/Service Delivery Unit and Discharge is on the last date of service in a Program/Service Delivery Unit
- Other, Specify:

<table>
<thead>
<tr>
<th>Other: Specify</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
</tr>
</tbody>
</table>

### DISCHARGE DATA COLLECTION

**How was discharge data collected for table T4? (Select all that apply)**

- Not applicable, data reported on form is collected at time period other than discharge
  Specify:
  - In-Treatment data ___ days post admission
  - Follow-up data ___ months post admission
  - Other, Specify:

<table>
<thead>
<tr>
<th>Other, Specify</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
</tr>
</tbody>
</table>

- Discharge data is collected for the census of all (or almost all) clients who were admitted to treatment
- Discharge data is collected for a sample of all clients who were admitted to treatment
- Discharge records are directly collected (or in the case of early dropouts) are created for all (or almost all) clients who were admitted to treatment
- Discharge records are not collected for approximately ___% of clients who were admitted for treatment

### RECORD LINKING

**Was the admission and discharge data linked for table T4? (Select all that apply)**

- Yes, all clients at admission were linked with discharge data using an Unique Client Identifier (UCID)
  Select type of UCID:
  - Master Client Index or Master Patient Index, centrally assigned
  - Social Security Number (SSN)
  - Unique client ID based on fixed client characteristics (such as date of birth, gender, partial SSN, etc.)
  - Some other Statewide unique ID
  - Provider-entity-specific unique ID

- No, State Management Information System does not utilize UCID that allows comparison of admission and discharge data on a client specific basis (data developed on a cohorts basis) or State relied on other data sources for post admission data
- No, admission and discharge records were matched using probabilistic record matching

### IF DATA IS UNAVAILABLE

**If data is not reported, why is State unable to report? (Select all that apply)**

- Information is not collected at admission
<table>
<thead>
<tr>
<th>Information is not collected at discharge</th>
</tr>
</thead>
<tbody>
<tr>
<td>Information is not collected by the categories requested</td>
</tr>
<tr>
<td>State collects information on the indicator area but utilizes a different measure.</td>
</tr>
</tbody>
</table>

| DATA PLANS IF DATA IS NOT AVAILABLE | State must provide time-framed plans for capturing alcohol abstinence data on all clients, if data is not currently available. Plans should also discuss barriers, resource needs and estimates of cost. |
