Performace Measure Data Collection
Interim Standard – Percentage Point Change in Abstinence - Other Drug Use

GOAL To reduce substance abuse to protect the health, safety, and quality of life for all.

MEASURE The change in all clients receiving treatment who reported abstinence at discharge.

DEFINITIONS Change in all clients receiving treatment who reported abstinence at discharge equals clients reporting abstinence at admission subtracted from clients reporting abstinence at discharge.

Most recent year for which data are available

<table>
<thead>
<tr>
<th>Drug Abstinence – Clients with no drug use (all clients regardless of primary problem) (use Any Drug Use in last 30 days field) at admission vs. discharge.</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Number of Clients abstinent from illegal drugs [numerator]</strong></td>
</tr>
<tr>
<td><strong>Total number of clients with non-missing values on “used any drug” variable [denominator]</strong></td>
</tr>
<tr>
<td><strong>Percent of clients abstinent from drugs</strong></td>
</tr>
<tr>
<td>Percent of clients abstinent from drugs at discharge minus percent of clients abstinent from drugs at admission. (Positive percent change values indicate increased drug abstinence)</td>
</tr>
<tr>
<td>Absolute Change [%T₂-%T₁]</td>
</tr>
</tbody>
</table>

(2) If State does not have a “used any drug” variable, calculate instead using frequency of use variables for all primary, secondary, or tertiary problem codes in which the coded problem is Drugs (e.g., TEDS Codes 03-20)

State Description of Other Drug Use Data Collection (Form T5)

**STATE CONFORMANCE TO INTERIM STANDARD**

States should detail exactly how this information is collected. Where data and methods vary from interim standard, variance should be described.

**DATA SOURCE**

What is the source of data for table T5? (Select all that apply)

- [ ] Client Self Report
- [ ] Collateral source
- [ ] Administrative data source
### EPISODE OF CARE

**How is the admission/discharge basis defined for table T5? (Select one)**

- Admission is on the first date of service, prior to which no service has been received for 30 days AND discharge is on the last date of service, subsequent to which no service has been received for 30 days
- Admission is on the first date of service in a Program/Service Delivery Unit and Discharge is on the last date of service in a Program/Service Delivery Unit
- Other, Specify:

### DISCHARGE DATA COLLECTION

**How was discharge data collected for table T5? (Select all that apply)**

- Not applicable, data reported on form is collected at time period other than discharge Specify:
  - In-Treatment data ______ days post admission
  - Follow-up data ______ months post admission
  - Other, Specify:
- Discharge data is collected for the census of all (or almost all) clients who were admitted to treatment
- Discharge data is collected for a sample of all clients who were admitted to treatment
- Discharge records are directly collected (or in the case of early dropouts) are created for all (or almost all) clients who were admitted to treatment
- Discharge records are not collected for approximately ______ % of clients who were admitted for treatment

### RECORD LINKING

**Was the admission and discharge data linked for table T5? (Select all that apply)**

- Yes, all clients at admission were linked with discharge data using an Unique Client Identifier (UCID)
  Select type of UCID:
  - Master Client Index or Master Patient Index, centrally assigned
  - Social Security Number (SSN)
  - Unique client ID based on fixed client characteristics (such as date of birth, gender, partial SSN, etc.)
  - Some other Statewide unique ID
  - Provider-entity-specific unique ID
- No, State Management Information System does not utilize UCID that allows comparison of admission and discharge data on a client specific basis (data developed on a cohorts basis) or State relied on other data sources for post admission data
- No, admission and discharge records were matched using probabilistic record matching

### IF DATA IS UNAVAILABLE

**If data is not reported, why is State unable to report? (Select all that apply)**

- Information is not collected at admission
| DATA PLANS IF DATA IS NOT AVAILABLE | State must provide time-framed plans for capturing drug abstinence data on all clients, if data is not currently available. Plans should also discuss barriers, resource needs and estimates of cost. |
